4 YEAR IN REVIEW & INTERN PROJECTS
6 INTERN AND EMPLOYER TESTIMONIALS
8 EMPLOYER HOSTS AND SUPPORTING PARTNERS
9 2020 FUNDERS
10 GETTING INVOLVED
Dear On-Ramps Partners,

With the historic challenges of 2020 we are more thankful than ever for partners like you who have helped our students and programs continue to grow and even thrive. Even in this tough year, On-Ramps was able to grow our internships by 60% and empower 200 underrepresented young people to enter STEM internships in the summer of 2020 - thanks to you. Here are just a few of our highlights:

- All of our 16 employers stepped up to the challenge of “going virtual” with their internships, creatively organizing and virtually supervising projects with youth.
- Long term partners like Accenture, Acquired Data Solutions, Georgetown University Information Systems and Virginia Tech/Qualcomm not only continued their internships but stepped up to extend more opportunities to Washington, DC Youth.
- On-Ramps Alumni who are now in college came back to develop our TEAMS curriculum with ADS and become junior managers to help many employers create even more opportunities for younger students.
- Our Board expanded to welcome new members from AT&T and Pepco and met weekly to proactively meet the challenges of COVID in the spring and plan strategy for the coming 5 years.
- The Department of Employment Services funded both our summer technology internship program and a new Call Center for students to serve their peers and city.
- AT&T quadrupled its commitment and level of support for our work to $100,000.
- Our staff delivered more career events than ever by delivering virtual workshops during and after school and using new and interactive media.
- Foundations like Clark and CityWorks came aboard and helped us strengthen and diversify our funding.
- Individual donors stepped up when COVID hit On-Ramps financially and operationally in the spring and helped us not only weather the storm but thrive.
- We formed deeper partnerships with teachers and with DC Public Schools OSSE and charter schools to deliver Tenacity training for all interns.
- On-Ramps was featured 5 times on the news, including ABC, NBC, CBS and other outlets.

In the midst of all this growth, it’s clear that there’s even more unmet demand from students, schools and employment partners alike. So On-Ramps’ Board and staff have launched a strategic planning effort that lays out a road map for increased STEM internships for students (300 per year), more school year career exposure and training (25 per year), more corporate employment partnerships, enhanced digital learning platforms, and wider support to alumni. Please review our annual report knowing you played a role.

We are grateful for all you have done to support our work and look forward to a very bright 2021!

95% of students reported gaining new skills for their resume
98% of students reported their internship helped towards their careers goals

15 Employability Skills Workshops
16 Employer Hosts
Over 40 Volunteers
SAMPLE INTERN PROJECTS

- Developing new apps & media content at Accenture
- Designing video games at Dig-It Games
- Coding in HTML, JavaScript, Python for Websites and Robots at Girls Who Code
- Imaging computers at Georgetown UIS
- Building virtual reality scenarios using software at Jedburgh
- Creating graphic designs for social media content at United Negro College Fund
EMPLOYERS

On-Ramps students were great. Attentive, eager, helpful, talented...they learned a lot!

“Our intern came prepared with good coding and technical knowledge. We were able to build off of the skills she already had from what she’s learned in school.”

“We so appreciate the partnership and support. Some interns had challenges, and On-Ramps staff was always there to support and help out.”
"The Experience I had at DHS was a great learning experience in workplace structure and building confidence in my own work. The guidance that I was given will be used in and out of my professional career. Thank you for giving me the opportunity to experience the Program."

- Department of Homeland Security Intern

"I really appreciate the opportunity that you've given me to expand my knowledge on computer programming. I enjoyed the morning sessions and appreciate all of the advice that you shared with us. Thank you for making this summer fun and unforgettable."

- Indie Co. Intern

"I am very pleased to say how much I've learned. The internship really pushed me to work with computers and I am thankful for having the opportunity."

- Georgetown Univ. Information Systems Intern

TOP SKILLS GAINED

- 3d Modelling
- Fusions 360
- Microsoft Suite
- Web Design
- Computer networking
- Entrepreneurship
- Computer Programming
- IT Hardware
- Google Suite
- Data Analysis
- Project Management

---

**2020 Funding Sources**

- Corporate Contributions: 42%
- Government Funding: 42%
- Foundations: 10%
- Individual Donors: 6%
TO BUILD A DIVERSE TECHNOLOGY WORKFORCE, WE NEED YOUR SUPPORT.

GIVE

With every dollar donated, you are investing in the talents of underrepresented youth and playing a vital role in ending racial inequity and closing the wealth divide. To be part of the change, make a donation today at onrampstocareers.org/donate.

HOST

By hosting interns, you will be sparking a new STEM career, finding new talent, and working on a project that can benefit your company. Fill out our inquiry form today - https://tinyurl.com/hostwithonramps

VOLUNTEER

You have the ability to impact the lives of interns by donating your time and experience. We have volunteer opportunities available throughout the year. See our calendar: onrampstocareers.org/events
