

END OF YEAR IMPACT REPORT 2018

A YEAR IN REVIEW

Dear Friends and Partners,

This year, over 120 Washington DC youth and adult learners participated in On-Ramps to Careers' STEM internships and tech training opportunities!

We hope you enjoy looking back over the year, and join us in celebrating the accomplishments of every participant in our programs. Thank you as always for your continued support! We look forward to partnering with you again this year.

Sincerely,

Antwanye Ford
On-Ramps to Careers Board Chair

GREAT
YEAR!**

SUMMER STEM INTERNSHIP PROGRAM

This summer 85 On-Ramps interns worked on important projects with 15 technology employers across the National Capital metro area. They created innovative products, maintained valuable systems, developed in-demand skills, earned an income and got inspired to pursue STEM careers.

I was able to explore concepts in Computer Science I was interested in but had yet to experiment with.

- Zennon, Intern

“Being exposed to a STEM internship helped me pick a STEM major in college.”

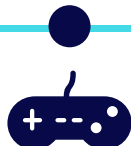

- Zach, Intern

SAMPLE PROJECTS OF OUR INTERNS IN 2018:

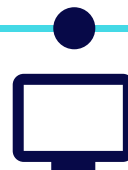

Developing new apps and media content at Accenture

Designing video games at Dig-it Games

Coding in HTML, Python and Javascript for websites and robots at Girls Who Code

Designing websites and branding at iStrategy Labs

Creating graphic designs for social media at United Negro College Fund

2018 SUMMER INTERNSHIP PROGRAM

INTERN FEEDBACK BY THE NUMBERS

90%

reported learning new skills that will help their future career goals.

90%

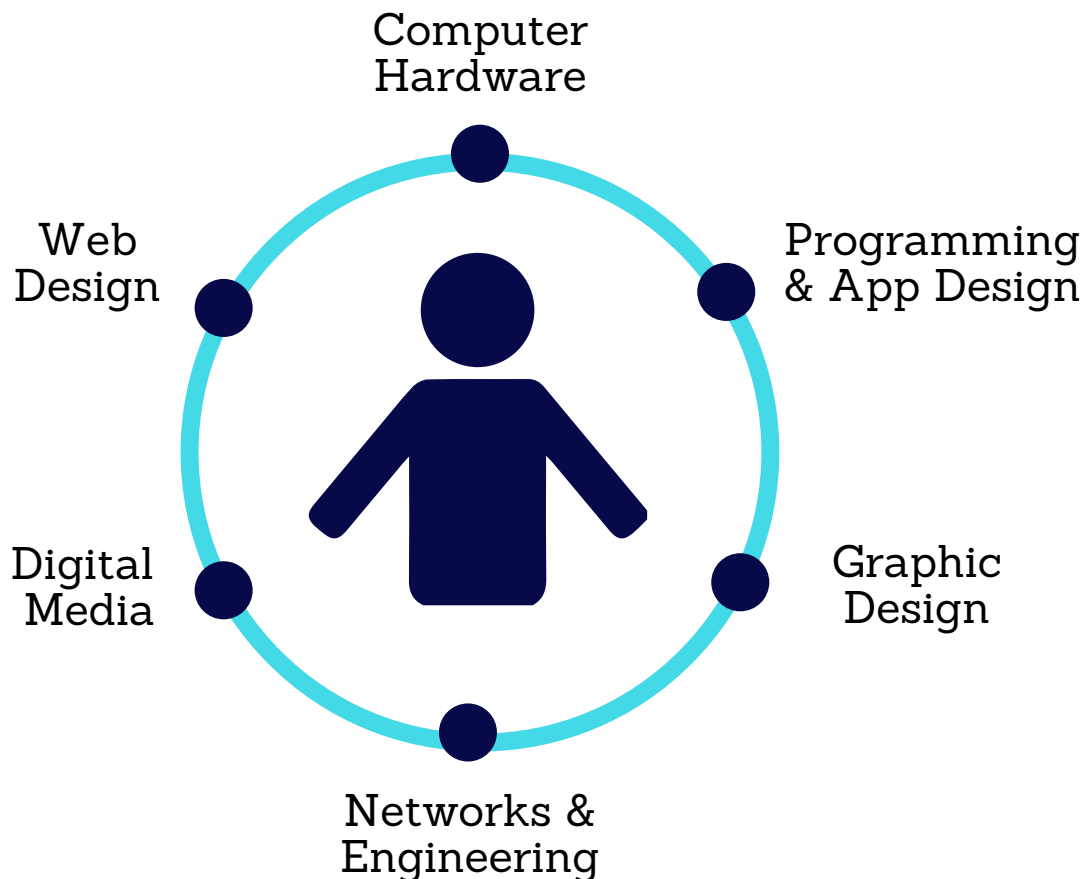

reported increased motivation in pursuing a career in the STEM field.

100%

would recommend an On-Ramps internship to others.

Skills Learned:

TECH-FASTRACK & OCTO TECH-LEAP PROGRAMS

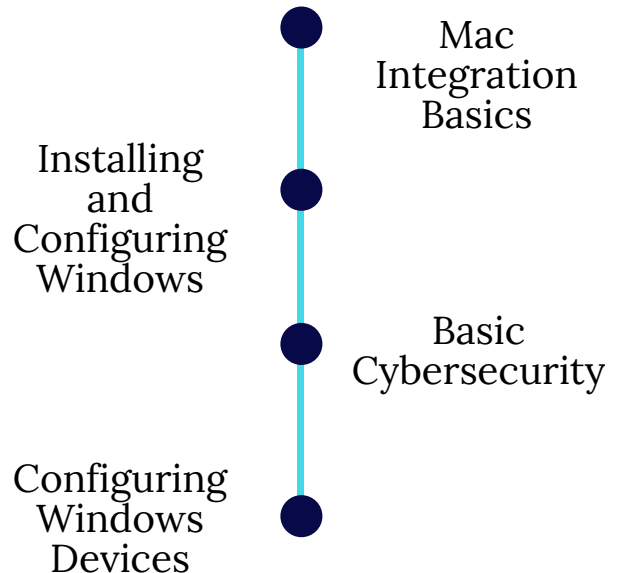

Partnerships with the DC Department of Employment Services & the Office of the Chief Technology Officer (OCTO)

LEAP PROGRAM RESULTS

In Partnership with DC's Office of the Chief Technology Officer (OCTO), the LEAP program helped 15 participants gain three IT certifications to enter the tech industry with new skills, credentials, and experience. They are now interning at OCTO and will transition to full time tech jobs.

ALL PARTICIPANTS EARNED CERTIFICATIONS, INCLUDING:

“TechLeap gave me the certifications I needed to re-enter the IT field after 4 years of unemployment.”

-2018 Graduate

100% of graduates earned paid internships or full time employment

83% completed full industry certification training

100% of graduates gained three IT certifications

FASTRACK PROGRAM RESULTS

Tech FasTrack partnered with DOES and DCPS to prepare 40 high school students to enter IT careers through technical and soft skills training, spring internships, and introductions to post-secondary training and technology degree opportunities.

82%

of graduates enrolled in college or gained full-time employment

PARTNER WITH US TO CHANGE THE FUTURE!

In 2019 we're excited to continue working with partners like you to increase the number of talented Washington D.C. youth entering technology careers. Employers, schools, post-secondary institutions, DC agencies and volunteers are all needed to expand this movement and help more students launch dynamic tech careers.

HOST AN INTERN!

By hosting interns, you will be sparking a new tech career, finding new talent, and working on a project that can benefit your company.

SPONSOR THIS MISSION!

Generous sponsor support ensures that the tech industry continues to diversify and get stronger. Your support can lead to major change!

MAKE A DONATION!
